FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR PEST CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable directions, restrictions, and precautions including statements pertaining to the Worker Protection Standards, on the EPA-registered Fusilade DX Herbicide label and this label.

This label and the EPA-registered Fusilade DX Herbicide Section 3 label must be in the possession of the user at the time of application.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.
For downy brome (cheatgrass) (*Bromus tectorum*), quackgrass (*Agropyron repens*) and bentgrass (*Agrostis sp.*) control in Creeping Red, Chewings and Hard Fescue varieties grown for seed in Oregon

**Fall Application** - Apply FUSILADE DX at 8 oz. per acre to actively growing downy brome in the 2 to 4 inch stage. Apply at 12 to 16 oz. per acre to actively growing quackgrass or bentgrass in the 6 to 10 inch stage. Make a second application of 12 to 16 oz. per acre on the perennial grasses before they reach 10 inches of regrowth.

**Spring Application** - Apply FUSILADE DX at 8 to 16 oz. per acre to actively growing grasses. Downy brome in the 2 to 4 inch stage can be controlled by the lower rate but larger, established grasses (4 to 6 inches) may need the higher rate for adequate control. Use 12 to 16 oz. per acre in quackgrass and bentgrass in the 6 to 10 inch stage and a second application at the same rates before they reach 10 inches of regrowth.

**RESTRICTIONS**

- Do not apply FUSILADE DX after fescue grass seedhead develops into the boot stage.
- Treated fields may not be grazed or harvested for forage until after harvesting grass seed crop.
- Do not apply this product through any type of irrigation system.

**Environmental Hazards**

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target area.
