United States

Synopsis:

Added: Aug 10, 2012 6:59 pm

This requirement seeks to obtain laboratories for laboratory measurements on water and plasma specimens for fluoride testing. The contractor shall provide any and all labor, equipment, supplies, services, permits, and licenses necessary to perform these measurements. A water sample will be collected at the household and processed in the examination center (MEC). Since fasting is not a requirement for fluoride plasma measurements this test will be measured on all participants in all sessions in the MEC. These tests will be performed on participants aged 6 to 19 years.
