The Honorable Linda Jackson  
Mayor  
Village of Endicott  
1009 East Main Street  
Endicott, NY 13760

Dear Mayor Jackson:

Please find enclosed correspondence from our constituents, sharing their concerns with the proposed lithium-ion battery facility from SungEel MCC Americas in Endicott. When considering the development of large-scale projects, I believe it is very important that residents have a voice every step of the way. I want to ensure the concerns from these residents are shared with your office. I have also provided this correspondence to the New York State Department of Environmental Conservation, which as you know issued an "Air State Facility permit" for the proposed facility this year.

Enclosed, the residents outline their concerns about the potential health and safety impacts of this facility. I appreciate you and the Board of Trustee's work to provide additional information to the public through various Board meetings, and I would encourage you to work with the company and additional stakeholders to continue to provide information to these constituents and answer their questions.

Thank you for your attention to this matter and your work to serve the people of Endicott. Please do not hesitate to reach out to my office for further information.

Sincerely,

A handwritten signature in cursive script that reads "Anthony Brindisi".

Anthony Brindisi  
Member of Congress
