Dear Applicant :

Please be advised that your application for a DEC permit(s) is complete and a technical review has commenced. Notice and the opportunity for public comment is required for this application. Enclosed is a Notice of Complete Application for your project. Please have the Notice published in the newspaper identified below once during the week of 10/07/2019 on any day Monday through Friday, OR ASAP.

BINGHAMTON PRESS & SUN BULLETIN
PO BOX 1270
BINGHAMTON, NY 13902

On the Notice of Complete Application, that information presented between the horizontal lines, on the enclosed page(s) should be published. Do not print this letter or the information contained below the second horizontal line. Please request the newspaper publisher to provide you with a Proof of Publication for the Notice. Upon receipt of the Proof of Publication promptly forward it to this office. You must provide the Proof of Publication before a final decision can be rendered on your application. You are responsible for paying the cost of publishing the Notice in the newspaper.

Notification of this complete application is also being provided by this Department in the NYSDEC Environmental Notice Bulletin.

This notification does not signify approval of your application for permit. Additional information may be requested from you at a future date, if deemed necessary to reach a decision on your application. Your project is classified major under the Uniform Procedures Act. Accordingly, a decision is due within 90 days of the date of this notice unless a public hearing is held, which may extend this time frame. If a public hearing is necessary, you will be notified.

If you have any questions please contact me at the above address or phone number above.

Sincerely,

JOSEPH M DLUGOLENSKI

Permits(s) Applied for: 1 - Article 19 Air State Facility

Project is located: in UNION in BROOME COUNTY

Project Description:
The proposed facility will recycle Lithium-ion batteries. The batteries will come from electric vehicles, cell phones and other electronic devices. EV batteries will be discharged using an electrical discharging station to decrease voltage to about 24 volts. Battery cases will be dismantled into cells, the cells will be heated in a rotary furnace, which further discharges the batteries. The batteries will be cooled, shredded, ground up and the metals will be separated. The rotary dryer will be equipped with an afterburner, a spray tower for cooling, a fabric filter, and a wet scrubber. A separate baghouse will be used for grinding and shredding.

Emissions of federally-regulated pollutants are predicted to be less than 50 percent of major source thresholds, and emissions of "high toxicity air contaminants" are predicted to be below the thresholds in 6 NYCRR 201-9, Table 2. The facility is thus eligible to Register; the Department is nonetheless requiring a State Facility Permit.

Availability of Application Documents:
Filed application documents, and Department draft permits where applicable, are available for inspection during normal business hours at the address of the contact person. To ensure timely service at the time of inspection, it is recommended that an appointment be made with the contact person.

State Environmental Quality Review (SEQR) Determination
Project is an Unlisted Action and will not have a significant impact on the environment. A Negative Declaration is on file. A coordinated review was performed.

SEQR Lead Agency NYS Department of Environmental Conservation

State Historic Preservation Act (SHPA) Determination

Cultural resource lists and maps have been checked. The proposed activity is not in an area of identified archaeological sensitivity and no known registered, eligible or inventoried archaeological sites or historic structures were identified or documented for the project location. No further review in accordance with SHPA is required.

DEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)

It has been determined that the proposed action is not subject to CP-29.

Availability For Public Comment

Comments on this project must be submitted in writing to the Contact Person no later than 11/08/2019 or 30 days after the publication date of this notice, whichever is later.
