Subject: Re: Fluoropolymer ECA Drafting Committee

Rich,

Thanks for very much for your note.

I think that I was overly optimistic about my ability to deal with WordPerfect.

When I went to open the document you sent, I got the following message:

"The document appears to be corrupt. Conversion may be incomplete."

and the document appeared to be blank.

Therefore, I am leaning on my secretary to generate a document that David can do the strike and insert redlining on. We plan to get you the redlined document in some electronic format during the afternoon on Friday 11/21.

I am working on getting out a revised Appendix A for Telomers by COB on Friday (certainly by Monday morning) in preparation for Tuesday's Telomers ECA call. I think we can have a very fruitful discussion on Tuesday based on the revised appendix language that I get out prior to that call.

I am still working with my friends in Dayton and my copyright lawyer around the ASTM methods.

Please also note that I need to be done with Monday's call by about 11:30 am so that I can go to a parent-teacher conference. If we need more time for discussion on Monday, I could be available again from 3 pm to 5 pm on 11/24 as needed.

Thank you very much.

Best Regards,

Robert
