Rich:

As you know, I have been actively pursuing the gathering of this information. We agreed last week, however, that this information would NOT be included in the drafts that were distributed to IPs for comment. Since it has no bearing whatsoever on the any issues that the IPs could legitimately comment on, the agreement to exclude it from the drafts was, and is, completely appropriate. I see no basis for changing the approach that we have agreed to follow regarding this issue.

Subject: Fluoropolymer ECA

I'm still missing the names of the signatories and addresses for the FMG companies. Although I have some of the addresses from your TRP submission last week, I'm reluctant to assume that they will be the same across these ECAs. I know you have been working on this... Please don't let this fall thru the cracks.... I'd like to have at least the addresses at this time for the IP documents.

Thanks
