Subject Re: Incineration ECAs 

David:

We received the returned signature package from Clariant GmbH on **11-5-04**. Although this was received at EPA no one has full access until it has been logged into the system by CBIC. Once all eight signature packages are fully logged into the CBIC system they will each be reviewed for completeness and to determine whether there are yet additional changes identified by the signatories.

My understanding is that there are additional changes identified by the signatories which will result in another round of correction page(s) to be initial by each company for the corresponding ECA(s). Since the timeline for testing under these ECAs is linked, one can not proceed without the other.

I should know more details by the end of next week.

Best Regards..... Rich

Subject Incineration ECAs

Rich:

Please update me on when these will be signed by Susie Hazen. Thanks.

David
